Certificate – Y-DNA

This Certificate confirms that you have had your DNA analyzed by Family Tree DNA.

The results below are from the DNA sample that you submitted to our testing service. The outcome from each of the twelve Loci examined is reported in the table below. For additional results visit your page at our web site.

For your benefit we have listed the Locus designation for all Twelve Loci utilized by the geneticists supporting our company. If your alleles for the twelve Loci match another person exactly, then you share the same Haplotype. However, if your numbers were off by one position from another person in one Locus, you would be considered in the same Haplogroup.

Family Tree DNA is a Genealogical tool designed to aid individuals wanting to “connect” to other relatives lost in time and where the paper trail no longer exists.
